

Weekly Report

Lin Bingru

2018.09.24 – 2018.09.30

Practices

- Fix bugs of my part of the component library of the big screen project according to the feedback of Party A; Speed up the rendering of Archimedean Spiral greatly with another implementation.
- Use Tensorflow.js and Python to fit curve of gaussian cumulative distribution function to sample points of the scatterplot perception project.
- Learn *CSS: The Definitive Guide*.

Future Work

- Continue working for the scatterplot perception project.
